

Deduction Audit

\$1,500 flat · 5 business days after all required files are received

PROBLEM

Deductions arrive with a reason code and little else. Nobody has time to link the evidence, group the likely causes, or see which trading partner is generating the most administrative burden.

EXACT DELIVERABLE

A classified deduction register with linked evidence; draft evidence packages for items you choose to review; and a trading-partner cost summary.

INCLUDED WORKLOAD

- Up to 200 deduction or remittance lines
- Up to 8 trading-partner programs
- Up to 10 draft evidence packages

TURNAROUND

5 business days after all required files are received.

PRICE

\$1,500 flat

You approve everything. Nothing is signed, submitted, or sent except by you. LogLyn does not determine whether a deduction is legally or contractually valid and does not contact your trading partners.

WHAT IS NOT INCLUDED

Dispute submission (you submit under your own name); trading-partner contact; EDI Exception Record Review (B3, a monthly continuation service, not part of this entry audit).
